### **BACKGROUND**

Jefferson Parish contracts with various non-profits, civic organizations, governmental agencies, political subdivisions, and the like through both Cooperative Endeavor Agreements (CEAs) and Intergovernmental Agreements (IGAs). These agreements are designed to provide a mechanism to receive goods and services from which the citizens of the Parish will benefit. Such goods and services include but are not limited to the following:

| COOPERATIVE ENDEAVOR AGREEMENTS             | INTERGOVERNMENTAL AGREEMENTS               |
|---|--|
| Security at the Parish Government Buildings | Prison Feeding, Keeping and Transportation |
| Coastal Protection and Restoration          | Promotion of Arts and Culture              |
| Services to Senior Citizens                 | Street Improvements                        |
| Bus Services                                | Levee Maintenance and Restoration          |
| Economic Development Services               | Walking Trails                             |
| Community Festivals                         | Provision of Fire Equipment and Services   |

As of January 31, 2020, the Parish had two hundred fifteen (215) active CEAs and ninety-five (95) IGAs for a total of three hundred ten (310) agreements in place. See Attachments A and B, respectively.

The CEA contracts amounts totaled \$313,579,034, while the IGAs totaled \$53,946,112 for a grand total of \$367,525,146.

The amount expended and encumbered for the CEAs were \$220,337,344, and \$47,995,207 for the IGAs for a grand total of \$268,332,551.

### **OBJECTIVE**

The Objective of this engagement was to determine if the Parish is monitoring CEAs and IGAs to ensure receipts of deliverables as per the agreements.

### **SCOPE**

The engagement included all CEAs and IGAs active as of January 31, 2020, and the review approach included:

- ➤ Obtaining a listing of all active CEAs and IGAs, along with contracted amounts, expensed, and encumbered amounts.
- > Selecting a sample of agreements and reviewing payment processing documentation.
- ➤ Determining the process flow of CEAs and IGAs from contract creation through payment processing.
- Determining monitoring processes and procedures currently in place.
- > Reviewing written policies and procedures.
- ➤ Interviewing key Parish personnel involved in the process, including personnel in Parish Attorney's Office, the Council Clerk, the Research & Budget Director, and the Departments of Finance, Purchasing, Budget, and Accounting.

The engagement covers only the areas, as indicated in the Objective stated above.

### **POLICIES AND PROCEDURES**

Internal Audit queried the Departments of Accounting, Budget, Finance, Purchasing, Information Technology, Council Clerk, Research and Budget, and Parish Attorney's Office. The objectives were to obtain any written policies and procedures in place related to CEA and IGA contract creation/initiation, determine what monitoring mechanisms are in place, and learn what electronic systems are used in the processes. See Attachment C for process flow, systems used, and responsible departments. Below is an overview of the processes and procedures from contract creation to payment processing.

Initiation

- •PAO develops and maintins contract templates for use.
- •Initiating department populates contract terms and drafts related council resolution.

Council Approval

- •Initiating department routes documentation through EDOCS to Council
- •Resolution is placed on Council agenda for approval. Note: A g/l account number is included.

Contract Review

- •Once approved, the Initating Department routes the contract through C-Track for review.
- Contract is reviewed by PAO, Dept, Council, Finance, and Budget.

Contract Signature

- •Once approved, the Council Chair and contractor/vendor sign the contract via DocuSign.
- Finance enters contract details into the AS/400 Financial Managment System.

<u>Fulfillm</u>ent

- •The contractor begins, or continues in some cases, fulfillment of the contract.
- The contractor, initiating department, or council forwards a request for payment to Finance or Accounting Dept.

Monitor

- Both the CEA and IGA templates include a reporting requirement.
- •An online portal exists for report submissions.

Payment

- Payment request is reviewed by Finance or by Initiating Department.
- Request is routed through the AS/400 (Receipt of Goods) to Finance, Purchasing, and Accounting for payment processing.

Internal Audit did not locate any written policies and procedures for the overall process; however, some written documentation is maintained by parish departments. There is a "Signature Route Checklist" maintained by the Parish Attorney's Office (See Attachment D), who oversees that part of the process. Additionally, there is a "Payment Processing Requirements Policy (See Attachment E) maintained by the Department of Accounting. To the parish's credit, most processes are achieved by the use of electronic systems such as EDOCS, C-Track, DocuSign, and the AS/400 Financial Management System.

The contract review process includes seven (7) signoffs from five (5) different departments. This process should be explored to see if efficiencies can be gained while still performing an effective review.

### COOPERATIVE ENDEAVOR AGREEMENTS

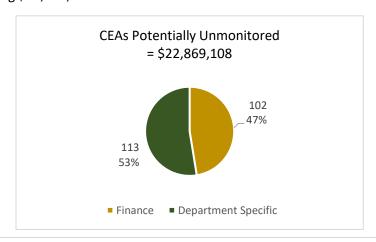

As previously indicated, there were two hundred-fifteen (215) active CEA's as of January 31, 2020. This listing was generated from the AS/400 Financial Management system. The Parish also maintains a searchable database of contracts on their Intranet. Such database indicated that there were two hundred-six (206) active CEA's as of that same period, that is to say, nine (9) contracts were missing from the Intranet site. Internal Audit notified both the Department of IT and the Department of Finance (who enters CEA and IGA contracts into the AS/400 once approved by Council.) As of the timing of this report, the discrepancy had not been resolved.

Internal Audit examined a sample of twenty (20) contracts and noted the following. (See Attachment J.)

<u>Contract Deliverables</u> — Contract deliverables reside in Section 2.0 "Deliverables" of a standard CEA Agreement (See Attachment F). In some cases, the deliverable was not specific and measurable, as written in the contract. For example, contract #'s 55-18447 and 55-17522 with Café Hope, Inc. state the deliverables as "Provide education and job training programs to at-risk young adults in the restaurant and hospitality industries through the operation of Café Hope, a restaurant specializing in home-cooked meals and catering." The deliverables are silent as to the number of at-risk young adults to be served, or that the participants need to be residents of Jefferson Parish.

<u>Payment</u> – Internal Audit examined payment request documentation processed for payment, and found that it generally adhered to the Payments Processing Requirements Policy maintained by the Department of Accounting. However, Internal Audit noted that twelve (12) of the twenty (20) reviewed were approved by the Department of Finance. A member of the Finance team reviewed the documentation for mathematical accuracy, meaning that invoices or other applicable documentation did not total more than the authorized contract amount. Also, Finance questions anything that is obviously not in line with the contract. Once Finance determined that the pay request was reasonable and within the contract amount, a Receipt of Goods was initiated in the AS/400, which starts the payment processing cycle. (See Attachment C for process flow.) There was no evidence that deliverables were confirmed or verified as part of the process. This brings the element of contract monitoring into question.

<u>Contract Monitoring</u> – Internal Audit obtained data from the AS/400 on who initiated Receipt of Goods (which starts the payment process) for all 215 active CEA's as of January 31, 2020. In total, payments for 102 of the 215, or 47%, were initiated by the Department of Finance/Accounting. This represents disbursements totaling \$22,869,108.

Ideally, a department/position with a relevant skillset should monitor the contract and verify that specific and measurable contract deliverables were or are being met. That same department should also review the pay request from the contractor and initiate the Receipt of Goods/Payment Processing. The Department of Finance should not be performing these functions since they are not monitoring the contract. Additionally, according to the Jefferson Parish Code of Ordinances Section 2-925.1(b)(2), iii, "Budgets [submitted by the contractor as part of the payment process] shall be approved at least annually by the internal auditor for [the] parish." This language will need to be changed to coincide with new processes and procedures.

The standard CEA agreement requires the contracting organization to furnish narrative reports to the Internal Auditor quarterly, annually, or within 30 days of the event taking place. These reports should be received and reviewed by the Department responsible for contract monitoring. Note that Internal Audit has a record of five (5) organizations submitting the required reports.

<u>Risks</u> - The risks of not having specific and measurable deliverables (goals) is that contracts cannot be effectively monitored, and Jefferson Parish Citizens may not receive the value and benefits for the taxpayer funds spent.

### INTERGOVERNMENTAL AGREEMENTS

The Parish had ninety-five (95) active IGAs as of January 31, 2020. Internal Audit examined a sample of eight (8) contracts and found similar results as the CEA sample. (See Attachment J.)

- Contract deliverables need to be more specific and measurable.
- There was no evidence that deliverables were confirmed or verified as part of the payment process. A designated contract monitor and actual contract monitoring was not apparent.
- ❖ The Department of Finance initiated payment processing for forty-two percent (42%) of the entire population of IGA contracts active, or forty (40) of the ninety-five (95) contracts. This represents disbursements totaling \$12,563,736.

The IGA standard agreement requires submission of reports to the Internal Auditor versus a designated contract monitor. Note that Internal Audit has a record of one (1) organization submitting the required reports.

- Many CEAs and IGAs in place do not consistently contain specifically defined and measurable deliverables. Apply Locke and Latham's Goal Setting Theory<sup>1</sup> to contract creation by utilizing the "SMART" method of goal setting. The focus should be on clearly defining the deliverables and ensuring that they are specific, measurable, attainable, realistic, and timely. See Attachment H for more details.
- 2. The current contract review process includes seven (7) signoffs from five (5) different departments. (See Attachment C for the CEA/IGA process flow chart.) Consider streamlining the current process to be more efficient while still performing an effective review. See 2a through 2c for a suggested process.
  - a. The Initiating Department could verify that the contract meets the intended objectives and that the contract includes SMART deliverables, as suggested in #1 above.
  - b. The Parish Attorney's Office could review for compliance with laws, rules, regulations, and consistency with other CEA/IGA contracts in place.
  - c. The Budget Department could review for the appropriate account number from which funding is available.
- 3. The Parish does not have a contract monitoring policy that assigns a responsible person to monitor each contract. The Administration should develop Parishwide policies and procedures for contract monitoring, which calls for the function to be resident in an Initiating Department or otherwise assigned to a position with the appropriate skill set. (See Attachment I for examples of Contract Monitoring Policies in place at other organizations.) The contract monitoring policy should include procedures for such monitoring. Additionally, a process needs to be but in place to ensure all contracts currently in place are assigned a contract monitor. The Jefferson Parish Code of Ordinance Section 2-925.1(b)(2),iii, needs to be amended to reflect changes as relates to the receipt of documents required for payment processing.
- 4. Current CEA-IGA contract templates call for the contracting organization to furnish narrative reports to the Internal Auditor quarterly, annually, or within 30 days of the event taking place. (See Contract Templates at Attachments F and G "Reports.") An electronic reporting mechanism is in place via the parish website at <a href="https://www.jeffparish.net/departments/internal-audit/cea--iga-reporting-form">https://www.jeffparish.net/departments/internal-audit/cea--iga-reporting-form</a>. The Parish Attorney's Office should alter the contract language to specify that the contract monitor is to receive such reports. The online platform can still be utilized for online report submission. The Department of Internal Audit will include any necessary review of the reports as part of the annual risk-based audit plan.
- 5. The Resolutions presented to the Parish Council for CEAs and IGAs include the account number to which the funds should be charged. The Initiating Department and the Parish Attorneys' Office should also include the position or Department designated as the contract monitor. This procedure should also be included in the Contract Monitoring Policies and Procedures.

### **SUMMARY**

The Parish does many things well in its processes and procedures to initiate and negotiate Cooperative Endeavor Agreements and Intergovernmental Agreements that provide for valuable products and services to the citizens of Jefferson Parish. There are various levels of review in place in creating the contracts, automated systems are in place to route the contracts for approval and signature, and there are controls in place for payment documentation review and payment processing.

There are, however, key elements missing from the process. Contract deliverables could be enhanced in many cases to include verbiage that is clear, specific, and measurable. A specific person needs to be designated to monitor each contract. The assignment of responsibility should be on a case-by-case basis for each contract based on the defined contract deliverable. Parishwide Policies and Procedures for formal contract monitoring need to be developed and implemented.

### **REPORT WRAP UP**

The Department of Internal Audit would like to thank the various departments who were consulted in obtaining information for this report. They were all very responsive and exhibited the utmost professionalism throughout the process of this engagement.

Internal Audit obtained responses from the Jefferson Parish Administration, which can be found in Attachment #2, immediately following this report. The subject matter and recommendations are Parishwide; therefore, a response from a specific Department is not warranted.

### PAYMENT PROCESSING REQUIREMENTS (EXCERPT)

### Parish Payment Processing Requirements - Overview

Items for payment shall be sent to the Accounting Department for review and processing. Payables are set up for payment on Monday's and Wednesday's of each week. Payments are available on Tuesday's and Thursday's via check or direct deposit. Adequate lead time must be considered when submitting an item for payment. That is, if an item is received by the Accounting Department on Monday then it will likely not be available as a payment on Tuesday. The items must generally be accompanied by a Receipt Post Listing which includes the Purchase Order Number; Contract Number, when applicable; Account Number; Project Number, when applicable, Invoice, and any other relevant supporting documentation. Specific expenditure types are listed below, and specific documentation requirements are shown in the attached Payment Processing – Required Documentation Table.

**Purchases of \$1000 or less** may be processed by Department Purchase Order provided guidelines, instructions and prohibitions in the Purchasing Manual are followed. Refer to Ref# 1 of the Payment Processing Table for documentation requirements.

All items over \$1,000 need to be competitively bid with the following exceptions which were taken from the <u>Purchasing Procurement Overview</u>: Cooperative Purchasing (Piggy Back), State Contracts, Requests for Proposals, Statement of Qualifications, Sole Source Procurement and Emergency Purchases.

More information on the <u>Uniform Purchasing Procedures</u> can be found in the <u>Parish Code of Ordinances</u> and in the Parish <u>Purchasing Manual</u>. Both documents can be found on the Parish Intranet. Additionally, the Parish Attorney's office has a <u>Guide to Processing Bid Contracts</u> on the Intranet.

Refer to reference numbers (Ref#) 2 through 4 of the Payment Processing Table for documentation requirements of items over \$1,000.

Items under contract may be processed by Contract Purchase Orders (CPO), and State Contract Purchase Orders (SPO). The research shows that specific and challenging goals lead to better performance (Locke, 1968). In this lesson we will be working on designing a plan and creating SMART goals to help us achieve a healthier lifestyle.

You goal should be as specific as possible and answer the questions: **What** is your goal? **How** often or how much? **Where** will it take place?

Goals

**How** will you measure your goal? Measurement will give you **specific feedback** and hold you accountable.

Goals should push you, but it is important that they are **achievable**. Are your goals attainable?

Is your **goal and timeframe realistic** for the goal you have established?

### **EXAMPLE OF CONTRACT MONITORING POLICIES AND PROCEDURES**

# Administrative Policies and Procedures Manual - Policy 2015: Contract Monitoring

Date Originally Issued: 07-01-2011 Revised: 11-01-2011, 12-12-2016

Authorized by RPM 7.8 ("Signature Authority for Contracts")
Process Owner: Executive Vice President for Administration

#### 1. General

Monitoring the performance of contractors is a key function of proper contract management and administration. The purpose of contract monitoring is to ensure that the contractor is performing all duties in accordance with the contract, the financial interests of the University are protected, and the University is aware of and addresses any developing problems or issues on a timely basis. When a contract is executed in accordance with Section 5.4 of <u>UAP 2010 ("Contracts Signature Authority and Review")</u>, a UNM employee is appointed as the contract monitor and is responsible for monitoring the contract for proper execution and performance from the start date of the contract through completion and final payment. For the purposes of this policy, a "contract" is defined as a written agreement between two (2) or more parties intended to have legal effect, including Memorandums of Understanding, Memorandums of Agreement, Nondisclosure Agreements, and Letters of Understanding. Requests to exempt contracts from the requirements of this policy must be approved in writing by the Executive Vice President for Administration. This Policy does not apply to research, clinical, and sponsored project contracts or agreements which are monitored in accordance with applicable rules, regulations, and policies.

### 2. Contract Monitor

### 2.1. Role and Responsibilities

The contract monitor is responsible for monitoring that contract requirements are satisfied, goods and services are delivered in a timely manner, safety and risk issues are addressed, and required payments are approved. The contract monitor is also responsible for striving to resolve discrepancies and timely reporting of any unresolved discrepancies and/or problems to the administrator who signed the contract or agreement.

### 2.2. Monitoring Procedures

Contracts should be monitored for performance to ensure goods and services conform to the contract requirements. The contract monitor should report the status on all open contracts at the close of each fiscal year and upon completion of the contract.

The contract monitor should review the contract to identify deliverables and develop a monitoring plan/checklist for each contract taking into account the level of risk. General factors used to assess the level of risk include, but are not limited to:

- · the dollar amount of contract;
- · negative impact to the University's safety and/or reputation if the contract is not executed properly and on time;
- · the contractor's past performance; and
- · how experienced the contractor is with the type of work to be performed.

At a minimum, the contract monitor should perform the following contract monitoring procedures:

https://policy.unm.edu/university-policies/2000/2015.html

1/2

- Monitoring the contractor's progress and performance to ensure goods and services conform to the contract
  requirements. Depending on the nature of the contract the contract monitor may need to conduct one or more site visits.
- · Documenting required contractor visits, tests, and significant events, if relevant.
- · Reviewing required reports submitted by the contractor demonstrating compliance.
- · Resolving disputes in a timely manner.
- Verifying receipt of contract deliverables in accordance with the contract terms and maintaining detailed supporting documentation.
- Reviewing contractor's invoices and reconciling and verifying payments consistent with the contract terms and maintaining proper documentation.
- Reviewing compliance with applicable laws, regulations, and policies and consulting with the applicable University department if there are any concerns (such as Purchasing, University Counsel, Safety and Risk Services, Human Resources

### 2.3. Poor or Under Performance by Contractor

If a contract monitor determines that the contractor's performance is not acceptable, the contract monitor should notify the responsible UNM administrator identified on the contract review form. This administrator in consultation with the Purchasing Department will determine the appropriate action, which may include withholding some or all of payment.

### 3. Reporting

The contract monitor is responsible for reporting the following information on a timely basis to the administrator who signed the contract or agreement,

- · any unresolved discrepancies and/or problems;
- · status reports at reasonable intervals; and
- · a final report when the contract is completed.

# **Monitoring Policy**

Monitoring the performance of the contractor is a key function of proper contract administration. The purpose is to ensure that the contractor is performing all duties in accordance with the contract and for the contract administrator to be aware of and address any developing problems or issues.

Small dollar value or less complex contracts normally require little monitoring. However, that does not preclude the possibility of more detailed monitoring if deemed necessary by THECB. Conversely, large dollar contracts may need little monitoring if the items or services purchased are not complex, and THECB is comfortable with the contractor's performance and the level of risk associated with the contract.

### Texas Higher Education Coordinating Board

### Contract Monitoring Policy & Procedures

### **Contract Monitoring**

Review the statement of work and other contract terms, including contractor compliance requirements. All of these requirements are deliverables that the contractor agreed to when the contract was executed or the purchase order was issued. Design the monitoring program to focus on items that are most important. Generally, this means to focus the monitoring on the outcomes that result from the contract.

If the contract is a cost reimbursement contract wherein THECB pays for the contractor's cost plus a percentage of overhead and profit, contract administrator needs to consider the following monitoring reviews:

- •Was the item billed really purchased by the contractor?
- •Was the item billed used for the purpose of the contract?
- •Was the item necessary and reasonable for the purpose of the contract?
- •Was the item of the quality and quantity specified in the contract?
- •Was the item duplicated in either overhead or profit?
- Was the item listed in the contractor's budget and approved by THECB?

These are items that should also be considered in any other type of contract.

# Monitoring Types

### SITE VISITS

More complex contracts and contracts that the contract administrator perceives as having a higher degree of risk may require both reviews and visits to whenever the contractor is performing the work, including the contractor's facilities, to ensure progress is in accordance with the contract schedule. Site visits can be used to verify actual performance against scheduled or reported performance. These can ensure the contractor is dedicating sufficient resources and appropriate personnel to the contract. Site visits reinforce the importance of the contract from the agency's perspective to the contractor, as well as provide the opportunity to enhance communications with the contractor.

### Desk Review

Typically these are reviews of reports submitted by the contractor to THECB. Contract Administrator should review the reports for the following:

- Compare the actual performance against the contract requirements. Is the contractor performing in accordance with the contract requirements?
- Compare actual expenditures to the approved budget. Is the contractor following their approved budget plan?
- Compare the current period to prior periods. Are there any unexplained trends? Is the contractor
  performing work significantly different from the last period or the last year that was not anticipated
  in the contract?

# Texas Higher Education Coordinating Board Contract Monitoring Policy & Procedures

 If applicable, compare what the current contractor is doing in comparison with other contractors performing similar work.

RE: Internal Audit Report #2020-002

Cooperative Endeavor and Intergovernmental Agreements

Contract Management

Dear Ms. Hazelbaker:

In accordance with Sec. 2-162.5(b), Jefferson Parish Code of Ordinances, the Administration provides the following response to Internal Audit Report #2020-002 ("Report"): Cooperative Endeavor and Intergovernmental Agreements Contract Management, received by the Administration on May 5, 2020.

Preliminarily, as noted in the audit, a sample of twenty (20) CEA's and eight (8) IGA's of the 310 Agreements in place as of January 31, 2020 were examined. The Report Summary provides: "The Parish does many things well in its processes and procedures to initiate and negotiate Cooperative Endeavor Agreements and Intergovernmental Agreements that provide for valuable products and services to the citizens of Jefferson Parish." The Report also contains five "Findings and Recommendations" each of which is addressed below.

**Finding 1.** Many CEAs and IGAs in place do not consistently contain specifically defined and measurable deliverables. Apply Locke and Latham's Goal Setting Theory to contract creation by utilizing the "SMART" method of goal setting. The focus should be on clearly defining the deliverables and ensuring that they are specific, measurable, attainable, realistic, and timely. See Attachment H for more details.

Response: Monitoring is a key function of prudent contract administration and we agree the Parish would benefit from more clearly defined Agreement deliverables including that they are specific, measurable, attainable within a reasonable time, and realistic. The Office of the Parish Attorney will consider an effort to revise the CEA and IGA templates contained on the Parish Intranet for departmental and administrative use to facilitate more clearly defined deliverables which are specific, measurable, attainable within a reasonable time, and realistic.

- **Finding 2.** The current contract review process includes seven (7) signoffs from five (5) different departments. (*See* Attachment C for the CEA/IGA process flow chart.). Consider streamlining the current process to be more efficient while still performing an effective review. See 2a through 2c for a suggested process.
- a. The Initiating Department could verify that the contract meets the intended objectives and that the contract includes SMART deliverables, as suggested in #1 above.
- b. The Parish Attorney's Office could review for compliance with laws, rules, regulations, and consistency with other CEA/IGA contracts in place.
- c. The Budget Department could review for the appropriate account number from which funding is available.

Response: Jefferson Parish recently implemented an electronic signature routing system and the Administration is committed to effectively routing Agreements for approval and signature while maintaining controls to ensure consistency, legal compliance, meaningful deliverables, and proper payment documentation, review, and processing. The present seven signoff and five departmental review process will be considered in determining whether some of those signoffs or departmental reviews may be eliminated or merged without compromising the Parish's commitment to programmatic success and financial and legal compliance.

**Finding 3.** The Parish does not have a contract monitoring policy that assigns a responsible person to monitor each contract. The Administration should develop Parish-wide policies and procedures for contract monitoring, which calls for the function to be resident in an Initiating Department or otherwise assigned to a position with the appropriate skill set. (See Attachment I for examples of Contract Monitoring Policies in place at other organizations.) The contract monitoring policy should include procedures for such monitoring. Additionally, a process needs to be but in place to ensure all contracts currently in place are assigned a contract monitor.

Response: The Administration has reviewed Attachment I, EXAMPLE OF CONTRACT MONITORING POLICIES AND PROCEDURES, and agrees the adoption of similar guidelines may benefit the Parish and the public. The Office of the Parish Attorney, EIS, Finance, Accounting, and it is suggested Research and Budget all play extensive roles in the Agreement approval and monitoring process and will work together to confect a draft set of policies and procedures for Agreement monitoring including identifying or establishing positions prospectively, as Agreement monitors. Should it be determined it appears additional positions are necessary to address the 315 Agreement monitoring function, the Personnel Department may also be consulted. The Office of the Parish Attorney will also be consulted as to the necessity for amendment, if any, to any Section of the Code of Ordinances including and not limited to, Section 2-925.1(b)(2) iii, Jefferson Parish Code of Ordinances.

Finding 4. Current CEA-IGA contract templates call for the contracting organization to furnish narrative reports to the Internal Auditor quarterly, annually, or within 30 days of the event taking place (See Contract Templates at Attachments F and G – "Reports."). An electronic reporting mechanism is in place via the parish website at https://www.jeffparish.net/departments/internal-audit/cea---iga-reporting-form. The Parish Attorney's Office should alter the contract language to specify that the contract monitor is to receive such reports. The online platform can still be utilized for online report submission. The Department of Internal Audit will include any necessary review of the reports as part of the annual risk-based audit plan.

**Response:** This Finding will be considered in confecting a draft set of policies and procedures for Agreement monitoring as indicated in Response to Finding 3 above.

**Finding 5.** The Resolutions presented to the Parish Council for CEAs and IGAs include the account number to which the funds should be charged. The Initiating Department and the Parish Attorneys' Office should also include the position or Department designated as the contract monitor. This procedure should also be included in the Contract Monitoring Policies and Procedures.

**Response:** This Finding will be considered in confecting a draft set of policies and procedures for Agreement monitoring as indicated in Response to Finding 3 above.
