

JEFFERSON PARISH, STATE OF LOUISIANA
DEPARTMENT OF PUBLIC WORKS

(I.C.E. PERMIT APPLICANT'S ASSURANCE OF INFRASTRUCTURE REVIEW)

I, the Permit Applicant, _____, do hereby acknowledge that I have been notified by the Parish of Jefferson ("the Parish") through the Parish Department of Inspection and Code Enforcement (I.C.E.) that the following requirements apply to all new construction, additions, or substantial improvements of any structures, including the project permitted by Permit No. (if available) _____ at the job site listed below. I further acknowledge that I have been advised that my failure to abide by said requirements is a violation of that permit that shall void the permit.

The Applicant must initial the blank space preceding the one (1) applicable statement below and must write "Not Applicable" in the blank space preceding the non-applicable statement below:

➤ _____ I have consulted with the Parish Department of Public Works' Engineering Department (Joseph Yenni Building, Suite 801, contact Ms. Alexa Dale, ADale@jeffparish.net) and hereby certify that this department has confirmed* that all public infrastructure, which fulfills all Parish requirements, including street, water main, sewer main, and drainage, is present, available, and accessible for connection, at said job site. The term "available" herein, shall only mean that water and or sanitary sewer mains exist within the public right-of-way (R.O.W.) fronting a property. {Warning – a "usable sewer service connection" **may not be available.**} I further certify that **I understand that any cost associated with connecting to the parish infrastructure (including costs related to installation of a new usable sewer service connection and water meter) is totally my responsibility. A usable sewer house connection must be in place, and located by the property owner prior to any plumbing design and/or construction.**

➤ _____ I have consulted with the Parish Department of Public Works' Engineering Department (Joseph Yenni Building, Suite 801, contact Ms. Alexa Dale, ADale@jeffparish.net) and have been advised* that all public infrastructure is **not** present, available, or properly accessible at said job site; or that some** or all of such infrastructure is missing or does not fulfill all Parish requirements. I hereby acknowledge that I understand that I am required to provide all public infrastructure meeting Parish requirements, at said job site before the completion of said project. I certify that I have made arrangements to provide such infrastructure. I understand that a **"Certificate of Occupancy"** for this project **shall not be issued** unless and until all public infrastructure, including street, water, sewer (including a usable sewer service connection), and drainage, is present, available, and properly accessible at said job site and further that all such infrastructure fulfills all Parish requirements.

➤ E-mail inquiries will be responded to, by the parish, within three (3) business days.

* I, the applicant, further certify that my understanding and knowledge of availability and/or lack of the required infrastructure is based on **examining and understanding available parish records** (GIS maps, Water Unit Sheet(s) # _____ and Sewer Unit Sheet(s) # _____) **which have been presented to me in person or on line, and to my understanding.**

** I, the applicant, further certify that I was made aware of the following **Unavailable / Insufficient** (please circle one) Infrastructure:

____ Street ____ Water ____ Sewer ____ Drainage

Permit # _____ Job Site Address _____

Owner _____
(Please print name and address)

(Please, also, print Applicant's name, address and the nature of involvement, if different from Owner.)
